641-985-2147

Once again we will be using Lignin Sulfanate for dust control since it is non-toxic to the environment. A minimum of 300' is required. Depending on weather, the first application will be between late May & early June, the second around July 4th, and the third around Labor Day. Please note that weather conditions throughout the season (very rainy/dry) can affect the duration of control. As a result, 2nd and 3rd application dates may be adjusted and/or additional applications may be needed, for consistent dust control. You can call our office at any time if you wish to add an additional application. For best results, we recommend *at least* two applications for season long control.

Advance orders received ***by May 18th*** will insure you are on the list for each scheduled application. You may still request dust control at any time throughout the season, and every effort will be made to get you scheduled, however orders received ***after May 18th***, may be subject to a \$50 upcharge. Remember, if your needs should change during the season, or if you have any questions, please call our office at the number listed above.

Advance payment is not required; we will send a bill at the end of the season.
THANK YOU!

(Please mail bottom portion with your dust control needs to the address above, or email to: ffgcoinc.com@gmail.com)

Pricing for 2018 remains the same as last season & is as follows: (please check one)
